

## SAGE MAS 500

Sage MAS 500 ERP is a highly reliable, robust series of business

applications covering all areas of business management, including customer relationship management (CRM), accounting and financials, distribution, manufacturing, human resources, payroll, project accounting, and electronic commerce. Customers are typically companies with 20 to more than 1,000 employees and \$25 million to \$250 million in annual revenue. The product provides a flexible, scalable, and full-featured business management solution.

Sage MAS 500 offers market-leading modular functionality that can automate many key business processes. Advanced CRM features focus organizations on their customers while ensuring accountability in their sales teams. It also offers sophisticated, flexible manufacturing and distribution solutions. An executive information portal provides Web-based access to the executives on the go. An out-of-the-box e-commerce application gets customers up and running quickly with an integrated, powerful, workflow-optimized Web site. These strengths combine with many others to provide a complete solution for mid-market companies.

Sage MAS 500 modules have won several awards, including three Microsoft "Best Technology Integration" Awards for leading the industry in technical

superiority, as well as five consecutive Software Technical Assistance Recognition (STAR) awards for outstanding customer service. In addition, Sage Software and its Business partners provide professional application training and implementation to provide a smooth and effective transition to MAS 500.
