BizNet™ Excel® Business Information Suite

The BizNet™ product suite is a business reporting and analytics platform that provides real-time access to your business data from Microsoft® Office Excel®. It delivers simple, yet powerful capabilities to anyone who uses spreadsheets to gather and analyze business information. It also gives you the ability to create a single Excel® template for multiple report generation. The BizNet™ product suite empowers end users with the ability to get immediate answers to questions without the usual challenges of gathering and refreshing the source data.

Features and Benefits:

Simple

- Real Time reporting
- 100% Excel®
- Leverage Existing Spreadsheets
- Drag and Drop Report Creation
- Pre-built Connections, Content, & Analysis
- Utilize Single Excel Template for Generating Multiple Reports
- No Additional Hardware Required
- Fully Deployed in Less Than a Day

Powerful

- Report from Multiple ERP Modules
- Consolidate Information from Multiple Databases
- Drag and Drop Multi-Dimensional Analysis
- Automatic Creation of PivotTables™ for Detailed Analysis
- Drill to Transaction Detail
- Generate Reports Faster with In-Memory Caching
- Alerts and Conditional Delivery
- Provide Workbooks that Decision-Makers Can Refresh and Filter Themselves.

BizInsight[™]

Real Time Excel[®] Reporting and Business Intelligence

BizInsight[™] creates a real-time connection to your business data from across systems which give users the assurance that they are working with data that is both secure and accurate. BizInsight's[™] unique ability to provide dynamic, multi-dimensional drill down to detailed information based on what the user is exploring provides a level of business insight not found with other reporting tools.

With BizInsight[™], you can create drag and drop reports, utilize reporting templates and create fully integrated reports from existing spreadsheets all within Excel[®].

BizContent[™]

Prebuilt Connections, Content and Analysis

BizContent[™] Packs extend the value of your current business systems investments. They provide pre-built best practice reporting and analysis with out-of-the-box database connectivity for real time access to business data. BizContent[™] jump starts your ability to provide complete up to date insight into business performance. It saves you time, money, and starts delivering results immediately.

BizBroadcast[™]

Automatically Generate & Distribute Multiple Formats

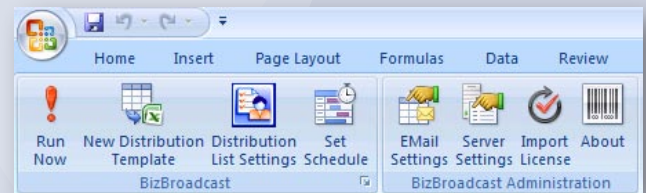

With BizBroadcast[™] you can design reports in Excel[®] and automate the generation and distribution in a variety of different formats and methods. BizBroadcast[™] enables you to create an automated information delivery system to all levels of users in your organization. Users can receive timely, actionable information in the formats and by the methods they prefer.
