Background

JobOps is published by Synergistic Software Solutions, LLC, a wholly-owned subsidiary of BDO Seidman, LLP. Synergistic Software Solutions, LLC was founded in 1983 and has been a Sage Software Business Partner for Sage MAS 90, Sage MAS 200 from the beginning. JobOps was introduced to the market in 1995 and has grown to include over 600 sites and over 7,000 end-users. Synergistic Software Solutions, LLC is based in Minneapolis, Minnesota and has a network of over 50 JobOps resellers in the United States.

Overview

JobOps provides a comprehensive solution for automating job management functions for manufacturing, distribution, and field service organizations. JobOps works in conjunction with Sage MAS 90 and Sage MAS 200 ERP systems, providing small to mid-market companies with a robust solution to handle their operations and workflow around making a product and servicing it. JobOps is a leading solution in meeting the unique and demanding needs of organizations that demand on-time delivery and job profitability.

Product Capabilities

JobOps integrated solutions for the award winning Sage MAS 90 ERP and Sage MAS 200 ERP software allows operational and financial information to work together and be accessible from a single source. JobOps delivers strong functionality to operations and finance providing full-featured job management and tracking that is designed to enhance a company's workflow.

Core functions of JobOps include job estimating, orders, job planning, purchasing, bill of materials management, scheduling, job costing and tracking and field service. Optional modules powered by JobOps include JobOps Product Configurator — a toolset that automates the building of custom products, as well as modules for enhanced scheduling, field service & dispatch and integration with Sage e-Business.

Strategic Partnership with Sage Software

Synergistic Software Solutions is an Authorized Sage Master Developer and works closely with Sage in delivering job management functionality delivered via JobOps to work specifically with Sage MAS 90 and 200 ERP software solutions.
