Authorized Partner

Select 2009

Both Sage MAS 90 and MAS 200 offer full-featured accounting, manufacturing, and distribution functionality. They include Business Insights—an insightful executive information system that shows managers where they can be more profitable with a quick snapshot of a company's financial data. With more than 25 modules to choose from, Sage MAS 90 and MAS 200 are comprehensive products that allow customers to tailor a system to meet the growing needs of their businesses. Customers can add integrated e-commerce, HRMS, and CRM solutions as well as the accounting, distribution, and manufacturing solutions.

Sage MAS 90 is a LAN-based system that operates on Windows servers. Sage MAS 200 offers client-server solutions that run on the Windows and SQL Server environments. Thin-client architecture in Sage MAS 200 delivers excellent performance for customers with multiple locations and personnel who work in the field. A straightforward upgrade path from Sage MAS 90 to Sage MAS 200

allows customers to consistently retain the same flexible, stable and reliable functionality as their businesses evolve—eliminating the need to re-train or convert data.

Featuring a range of built-in customization options, both Sage MAS 90 and 200 can be quickly and easily modified to meet customer-specific requirements. Our nationwide network of business partners offers hundreds of off-the-shelf, industry-specific enhancements designed to help customers make the most of their software investments.
