“As an accountant, I’ve been waiting a long time for a sales tax management Product that helps minimize risk for CPA firms AND their clients. SpeedTax is showing itself to have all the economies and streamlining benefits of SaaS, a user interface that makes fast work of management tasks and strategic insights, and technology sophistication and flexibility to support clients seamlessly through growth phases. **The SpeedTax MANAGER™ Pro product, geared toward CPA firms with multiple clients, really seals the deal. Early indicators are pointing to a best of breed designation for SpeedTax.**”

> *Geni Whitehouse CPA, CITP*

“As SST continues to make headway with legislative reform related to state tax rate simplification and uniform definitions within tax laws, the demand for SST-certified compliance and management solutions continues to increase. **The addition of SpeedTax is a sophisticated yet flexible service choice for businesses that need to quickly, responsibly, and accurately address their sales tax compliance and management needs.**”

> *Scott Peterson Streamlined Sales Tax (SST) Governing Board Executive Director*

“SpeedTax is entering the sales tax technology market at an unusually opportune time, with an impressive solution designed from the bottom-up by accountants as a Web-based application. The SpeedTax Service Engine™ gives customers a very powerful rules-based engine to deliver the highest-possible accuracy in jurisdiction and rate determinations, and automatically keeps customers up-to-date with geographic data, state rules, and unique business variables. **Businesses looking for next-generation audit protection should most certainly be looking at SpeedTax.**”
