FEATURES

Streamline your hiring process

Simplify your recruiting process through a powerful system designed to fill open positions within your organization with speed and efficiency. Abra Recruiting Solution lets you easily maintain an organized database of qualified applicants and track hiring expenses.

Match candidates to the right job

Accelerate the entire hiring process by e-mailing qualified candidate resumes directly to hiring managers. This step eliminates excessive paper files and provides quick access to resumes for printing or e-mailing. You can define skills, education, and work experience to search electronic files, matching applicants to open requisitions before having to run costly ads or paying search agency fees.

Better candidate data organization

Make your search for qualified candidates more efficient. With Abra Recruiting Solution, you can convert information from resumes and place it into electronic files for better organization. Create as many folders as you need, and conduct quick and accurate searches for qualified candidates through the entire database with a list of all applicants who fit your search criteria. Review resumes with highlighted keywords and print reports documenting your evaluation procedure, or begin another search. You can even convert paper resumes to electronic files for enhanced applicant search capabilities.

Be more responsive to applicants

Promote a better image of your organization by merging database information to send personalized letters to all applicants. You can also print mailing labels automatically for one or for multiple applicants in a variety of formats.

Improved compliance and strategic planning

Abra Recruiting Solution includes powerful reporting tools with standard, ad hoc query, and complex Crystal reporting options that provide quick and easy access to critical business information. You can run reports and have them sent using e-mail in Adobe PDF. The standard reporting options allow you to accurately document compliance for required hiring guidelines.

Peace of mind with robust security

Advanced, multi-level security options allow you to control which groups have access to data at any level. You can easily identify who made each change by date, time, and type of change by easily following audit trails. You also have the power to create and assign an unlimited number of user IDs and passwords.
