Streamline the Receiving and Shipping Processes

Auto Shipping and Receiving for MAS 500 provides a streamlining of the steps required to process PO Receipts and Sales Order Picking and Shipping activities. By combining the available steps into a central screen, the user can initiate and complete the Picking and Shipping activities in a single step. In certain environments, combining these steps can be a significant timesaver.

Flexible selection criteria combined with a choice of which steps to complete, give the user control over whether to run the entire process from Pick to Shipment Posting, or only up to Create Shipments, for example. This flexibility provides the user the opportunity to update transactions when required as part of the process, while still advancing the overall process forward more quickly and efficiently.

Built with the MAS 500 Application Framework, the Streamline Receiving/ Shipping module provides the same rich graphical and ease-of-use features found throughout MAS 500. Integration with MAS 500 is achieved with Customizer, extending functionality without modifying it.

Auto Shipping and Receiving for MAS 500®

Flexible Selection Criteria

Select Orders to Process by multiple criteria including Ship Date, Customer, Warehouse, Item, Sales Order, etc.

Process Drop Shipments

The Streamlined Shipping process is ideal for heavy drop-ship environments when all that is necessary is to post a shipment and generate an invoice.

Field	Type
Purch Order	All
PO Date	All
Vendor	All
Sales Order	All
Warehouse	All
Item ID	All

Select	Purch Order	Line	Item ID	Warehouse	Bin Location	Lot Number	Qty to Rcv
<input type="checkbox"/>	0000000152	2	CD Store	Rialto	A1-01-01-02		1.000
<input checked="" type="checkbox"/>	0000000152	3	CD-RW	Rialto	A1-01-01-03		4.000
<input checked="" type="checkbox"/>	0000000154	1	1.44 Floppy	Rialto	A1-01-01-01	CC010198	100.000
<input checked="" type="checkbox"/>	0000000154	2	56k Internal Modem	Rialto	A1-02-01-05		10.000
<input type="checkbox"/>	0000000168	1	1.44 Floppy	Rialto	A1-01-01-01		1.000
<input checked="" type="checkbox"/>	0000000173	1	1.44 Floppy	Rialto	A1-01-01-01	AJ-105	1
<input checked="" type="checkbox"/>	0000000173	2	Supervault 3000S	Rialto	A1-01-01-02		1
<input type="checkbox"/>	0000000173	3	ACS48 Spkr	Rialto	A2-02-02-11		.000
<input checked="" type="checkbox"/>	0000000173	4	TrainingManuals	Rialto	A1-01-01-01		2
<input type="checkbox"/>	0000000175	1	1.44 Floppy	Rialto	A1-01-01-01		100.000

Flexible Multi-Step Processing

Process Shipments in one step by selecting Post Shipments, and all preceding steps (Create Pick, Confirm Pick, Create Shipment) will be automatically selected. Or, select any previous step and the system will process only up to that point, allowing the user to manually update information at that point.

Enter Lots & Bins

The streamlining process allows for Lots and Bins to be defaulted and overridden when necessary. Environments that do not require these columns may hide them.

Print Documents and Registers

Print Pack Lists, Invoices and Registers automatically as part of the Auto-Ship Process.
