- Business Intelligence

Automate Time and Expense Tracking for Project-oriented Businesses

Sage TimeSheet is a project-oriented time and expense tracking solution—ideal for businesses that need to electronically track projects and collect data on the actual time spent and the expenses incurred on each task. Along with seamless integration with Project Accounting, Sage TimeSheet adds sophisticated time data collection to all major financial, project management and payroll systems.

Easy to install and administer, this comprehensive solution for internal or remote workgroups of any size helps track time and expenses by many user-defined levels, including employee, department, client, project, and individual task. Sage TimeSheet supports a robust approval mechanism that allows organizations to configure an approval process that matches their internal procedures and policies. Plus, Sage TimeSheet is easily adaptable to any organization's project structure and workflow.

For over a decade, thousands of organizations have relied on Sage TimeSheet (formerly Timesheet Professional) as their time tracking software to provide up-to-the minute analysis on project budget costs, estimated time-to-completion and resources. By enhancing the Project Accounting solution with the capabilities of Sage TimeSheet, customers can improve billing cycles, increase cash flow, and streamline expense reimbursement by leveraging automated Accounts Receivable and Accounts Payable invoicing generation facilities.
