

Add+it
On-the-Fly Surcharges
& More!

SAGE MAS 90 MAS 200

FEATURES

- Uses standard MAS tools (user-defined fields), so upgrades and maintenance are simple
- Calculates and adds surcharges based on user-selected parameters
- Control surcharges at customer level

BENEFITS

- Can be used for energy surcharges, or other charge types required by your business
- Enable surcharges on a specific item, or on freight, sales tax, other miscellaneous charges, and more
- A flexible, automated method for adding surcharges without adding lines on sales orders

REQUIRED MODULES

- Accounts Receivable
- Custom Office

MAINTENANCE PLANS

- Blytheco's annual maintenance plan includes software updates for current versions of MAS 90, MAS 200 and MAS 500

Control costs with a simple solution: Add-It!

If you frequently need to add fuel or other surcharges to customer orders, consider Blytheco's Add-It enhancement. Add-It uses standard Custom Office user-defined fields to easily establish rules for how and when to apply surcharges to sales orders and invoices.

The easy set-up of Add-It takes place within Accounts Receivable. You choose to apply surcharges as required: on sales orders, invoices (from Sales Order, Accounts Receivable, or Job Cost), or credit memos. The charge can be calculated as a percentage or a flat fee, with the option to override the charge available. You can also establish minimum and maximum charges. The calculation can be applied globally or by customer as needed. Surcharges flow to the general ledger via posting journals and reports.

Don't suffer due to increased energy prices or other costs; Blytheco's Add-It is an easy way to pass these costs along to customers.
