## TrueCommerce TC.Net™

---

TC.Net is a transactional gateway used in conjunction with our other products and services to provide EDI transaction routing, control, and administration between trading partners regardless of platform or system. You will receive and send transactions securely as e-mail via TC.Net and your transactions will be routed as EDI documents to and from your trading partners. The entire transaction process is automated and requires no direct involvement by you or your trading partners. TC.Net also provides access to historical data.

# You can keep your current translation software while saving on your monthly network fees!

You can exchange data with our network in any of the following ways:

## FTP

**Polled** (your FTP client uploads to and downloads from our FTP server)

1. Our FTP server hostname is: tcftp.truecommerce.net.
2. Use your TC.Net login and password provided by TrueCommerce.
3. Our FTP server is accessible through port 21
4. After successful login, you must change directory to the login directory. The login directory name is the same as your login ID.
5. Files from us will be placed in the incoming directory inside the login directory. The file extension can also be configured to meet your needs. This directory name and file extension will be provided by TrueCommerce.
6. The filename can be anything, but it must be unique for each file sent.
7. Each file from us is guaranteed to contain a single ISA interchange.
8. Each file from us is guaranteed to have a unique name.
9. Each file uploaded to our server must contain a single ISA interchange.
10. Each file from us must be deleted from the FTP site after retrieval.

**Dynamic** (our FTP server connects to your FTP server and vice versa)

1. Our FTP server hostname is: tcftp.truecommerce.net.
2. Use your tc.net login and password provided by TrueCommerce.
3. Our FTP server is accessible through port 21.
4. After successful login, you must change directory to the login directory. The login directory name is the same as your login ID.
5. Our network will connect to your FTP server using the login and password you provide to TrueCommerce.
6. Our network will connect to your server, log in, change to the directory you designate (optional) and deposit files.
7. Each file we send is guaranteed to contain a single ISA interchange.
8. Each file we send is guaranteed to have a unique name.
9. Files uploaded to our server must be placed in the login directory and use a file extension other than .NEW to prevent file name collision. The file name can be anything but it must be unique for each file sent.
10. Each file uploaded to our server must contain a single ISA interchange.
