

What's New in Sage MIP Fund Accounting Version 9

Streamlined Navigation and Enhanced User Interface

Fresh new look, same great product! While there are many updates to the appearance of Sage MIP Fund Accounting, you'll find that all the tools are in the same places and new options for customization make the system even easier to use.

- Appearance and color themes are updated, and graphics have been removed to expand and refresh the workspace within the desktop.
- Toolbars are set intuitively to fit accounting processes, and icons are easier to understand at a glance.
- New Process Manager creates a streamlined path through each process or function, orienting the system to organizational workflow.
- Vendors, Employees, Customer and other master records are easier to use with the new Quick Search function and filtering capabilities.
- New customization options such as alternating line colors within tables and drop-down menus allow for personalization and easier data comprehension.

New Tax Forms and eFiling by Aatrix®

The new Tax Forms and eFiling by Aatrix® functionality allows you to print federal and state tax forms straight from the preview screen onto blank, pre-perforated paper, eFile, or other options in using this fully integrated system. More than 250 approved payroll forms for all 50 states, including 941, W2, E6, and NYS45 are available, and the Payroll module automatically fills the forms with your data for review, and the system allows for on-screen editing of the tax forms.

New Recurring and Reversing Entry Manager

Benefit from increased control of varying types of entries, with options to keep on schedule with minimal time and effort. Save time by automating recurring entries, and easily update or edit the templates stored in the system. Multiple processing options allow for easy reversal of journal entries, and Recurring Entry Alerts can be set for due date notifications.

Enhanced Fixed Assets

Version 9 makes managing fixed assets smoother and easier. A new Fixed Asset Summary Ledger report provides a summary audit report. Several enhancements make it easier to track your assets, including accommodations for Zero Book Value Assets. Additional functionality has been extended to Quick Asset Entry.

Strong Audit Controls

Breathe even easier at audit time with new features and enhanced functionality. Version 9 automatically launches of the Chart of Account Wizard, provides additional document controls, and improves the Close Fiscal Year process with safeguards to roll prohibit and warning dates.

Additional System Enhancements

We strive to deliver customer-requested enhancements and ease-of-use improvements in each new version of Sage MIP Fund Accounting. Here are just a few of the many new features in Version 9:

- Payroll module – Rename any Employee ID to reflect individuals' lifestyle changes, such as marriage, and benefit from the new Benefit & Deduction Calculation method.
- Accounts Receivable – Additional Forms Designer fields for billing and customer statements.
- Accounts Payable – Ability to filter by segment codes to ease tax preparation of 1099s.
- Reporting – New Customer Activity Report and additional enhancements to reporting.
- User-Defined Fields – Double number of transactional level fields and a new Fixed Asset user-defined fields have been added.

These are just a few of the enhancements of Sage MIP Fund Accounting version 9. For more information, please view the recorded What's New Web cast.
