

# Complete Your Sage Software Solution

With an Applianz System From Blytheco, LLC

## Applianz Mid-Market Series

**IMAGINE** accessing Sage Software instantly from all of your locations and key employees working from home or on the road

**IMAGINE** your mission-critical data being backed up nightly to a secure off-site location

**IMAGINE** a lifetime system replacement guarantee (with CompleteAssurance)

**IMAGINE** all the PCs, Macs, server, firewalls, remote access and Windows licenses bundled together in one easy, simple box that sets up in minutes.

**IMAGINE** your business back up and running in less than a day in the event of a business interruption

**IMAGINE** no more. The Applianz system is a revolutionary solution that makes installing sophisticated business software like Sage Software as simple as plugging in a network device and following 3 easy screen prompts.

Our CompleteServer™ Technology creates a business network entirely in software; saving you money and making your business more profitable. By purchasing a pre-configured Applianz system you avoid the business disruption and expense usually associated with a new software roll-out.

Applianz systems virtually take care of themselves. With our CompleteAssurance™ Service Protection Plan, new features and security updates are tested and automatically installed on your system, keeping your Sage Software running smoothly and efficiently. And with CompleteAssurance, you get automatic offsite backups for the first 12 months at no additional charge.

**IMAGINE** all this and more for your business. Call your software consultant at Blytheco, LLC today at 800.425.9843 and ask about a Sage Software solution on an Applianz system for your business.

### 5 User System
