proven technology to create
cost effective and flexible
outsourcing solutions*

SERVICES SPOTLIGHT

PARTNER WITH THE INDUSTRY LEADER

Sage Compliance Services (formerly FLS) are for employers who wish to outsource the complicated process, and associated risk, of employer compliance. We offer complete outsourcing solutions for:

- Payroll Tax Reporting and Filing
- Wage Attachment and Garnishment Processing

Sage Compliance Services is a leader in the employer compliance market. Our services utilize the latest generation of our award-winning, patent-pending eDP.COMpliance system, which is currently in use by major employers across the U.S., including dozens of Fortune 500 companies and hundreds of government agencies.

When you outsource your payroll taxes or garnishments with us, we become your business partner, delivering flexibility, savings, and superior service. As an extension of your day-to-day operations, we're on your team with the best people in the industry, handling all the compliance, reporting, and technology challenges.

THE SAGE COMPLIANCE SERVICES OUTSOURCING DIFFERENCE

With Sage Compliance Services, you can manage your core business while we handle the complications of payroll tax and garnishment compliance. Our industry-leading outsourcing model and service commitment enables you to remain in complete control of the entire compliance process from beginning to end—hassle free!

Outsource the Risk

There are thousands of employer regulations imposed by over 10,000 federal, state, and local payroll tax agencies, and an untold number of garnishment issuing authorities. It can take a large, full-time staff just to keep track of these constantly changing laws and accurately handle the appropriate deposits, returns, garnishments, wage listings, reports, and annual reconciliations.

The workload may be daunting—but not complying with the law is not an option. Penalties and interest are assessed retroactively and can quickly reach up to 11% of a payroll tax deposit or the full amount of an employee garnishment. This poses a major risk to an employer's bottom line. Outsourcing your compliance requirements to our experts relieves you of this risk.

Focus on What You Do Best

There are more than 10,000 employer-regulating agencies in the U.S. No two agencies are alike, and their requirements are constantly changing. These complex regulations force you to focus on labor-intensive, repetitive tasks instead of strategic corporate goals.

Outsourcing your compliance requirements means you can focus on what you do best and leave the compliance worries to the experts.

SAGE COMPLIANCE SERVICES

Sage Compliance Services solutions processes an estimated \$90 billion in annual compliance payments for 8 million private sector employees

Save Money Over Standard Outsource Firms

Most outsourcers impound your funds days — or even weeks — before the agency payment is due. This allows them to benefit from the float, but it takes control of your cash away from you. With standard outsourcers, you're probably losing more money than you think.

Our service is different. We move the payment directly from your bank to the agency on the exact day it must be transmitted. Because our fees are based on transactions, not float, you maintain control of your cash and benefit from the associated positive cashflow, which is a significant advantage in today's uncertain financial climate.

Work the Web

Our secure web interface allows you to run reports, view and print returns, or review data changes anytime, anywhere. You get more control, more flexibility, and the confidence that each payment was made exactly on time to exactly the right agency.
