

Sage Business Prepaid Visa Card

Benefits

- Manage employee spending based on company policies.
- Funds can be allocated to employees instantly.
- View detailed transaction reports.
- FDIC insured through the Bancorp Bank; Member FDIC.
- No transaction or deposit fees.

The Sage Business Prepaid Visa Card is an efficient way for business owners and managers to control and manage employee spending on business-related purchases like gas, supplies, travel, and meals. The Sage Business Prepaid Visa Card program is made available through Sage's partnership with PEX Card, a pioneer in providing commercial turnkey card programs.

Control

You maintain online control on how much and where each employee can spend on behalf of your company. Administer your account in real-time from any computer, mobile device or by using the Sage Card mobile app. Place daily limits, restrict use to specific merchant types, suspend card use, or block future use immediately. Transaction reports are always up to date, and monthly reports can be downloaded so that you can track past spending and improve your budgeting process.

Instant Funding

You can move funds in your main account to employee cards for immediate use. Allocate different amounts to each card based on company policy. And since these are Visa cards, they can be used worldwide, everywhere Visa debit cards are accepted.

Safe and Easy to Enroll

Because this is a prepaid program, there are no credit checks or a lengthy credit underwriting process. Your business and personal credit ratings are protected, and your funds are FDIC insured through The Bancorp Bank; Member FDIC.

This Card is issued by The Bancorp Bank pursuant to a license from Visa U.S.A. Inc. The Bancorp Bank; Member FDIC.
