

## Extended Solutions

- Unlock Extended Solutions
- Merge Installation Files
- Extended Solutions Setup options

**Custom Office**

If you customize your MAS 90 MAS 200, then you must run the Update Utility *every time* you install this Extended Solution.

**Setup**

Once the disk is installed, you will need to access the Purchase Order Setup menu option screen. After the standard MAS 90 MAS 200 option screens have been displayed, a Setup screen for this Extended Solution will appear. Check the 'Enable Extended Solution' box to activate this Extended Solution (Figure 1). The manual for this Extended Solution, if it has been installed, can be viewed by clicking the 'Manual' button next to the 'Enable Extended Solution' check box. It can also be viewed via the Extended Solutions Control Center (see Installation, above).

PO-1186 Setup Options

Calculated Lot Qty during PO Receipt of Goods

Enable Extended Solution:  Manual Level 4.05 Rel: 01/30/06

Lot/Serial Number UDF for Length: 01

Lot/Serial Number UDF for Width: 02

Divisor: 144

Accept Cancel

Check this box to enable Calculated Lot Qty during PO Receipt of Goods FQC ABC 1/31/2006

Figure 1

Answer the following prompts:

**LOT/SERIAL NUMBER UDF FOR LENGTH:** Specify the numeric Lot/Serial UDF which will hold the length.

**LOT/SERIAL NUMBER UDF FOR WIDTH:** Specify the numeric Lot/Serial UDF number which will hold the width.

## Extended Solutions

**DIVISOR:** Specify a positive numeric number to be used as the divisor to calculate lot quantity.

You should visit this Setup screen after each upgrade or reinstallation of this Extended Solution.

### Operation

P/O Receipt of Goods, Lot Distribution has been modified to pop up the IM-1191 UDF entry window after you exit the Lot Number field. Upon exit of the UDF window, the Lot Quantity will be calculated as  $(\text{Length} * \text{Width}) / \text{Divisor}$ . This will happen upon each exit of the UDF panel.

If the sum of the Lot Quantities Received is not equal to the line's Quantity Received then the Line's Quantity Received will reset to the sum of the Lot Quantities Received.

If the line's Quantity Received is less than the line's Quantity Ordered you will be prompted to reset the line's Quantity Ordered to the Quantity Received (Figure 2). This new Quantity Ordered will update to the original Purchase Order during receipt update.

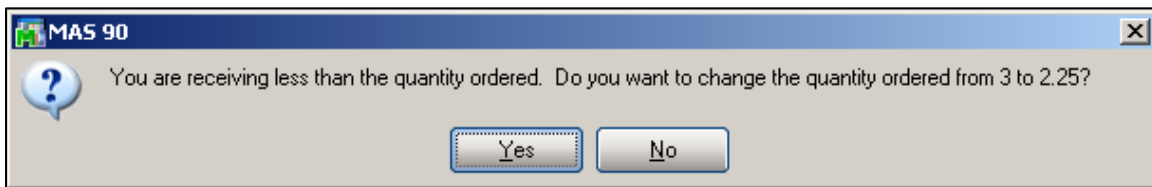

Figure 2

### Upgrades and Compatibility

The installation CD is labeled with the version of the MAS 90 MAS 200 module for which this Extended Solution was prepared. This Extended Solution will check its compatibility with the appropriate MAS 90 MAS 200 modules and will be disabled if an incompatibility is found. If you upgrade your MAS 90 MAS 200 modules, this Extended Solution must be upgraded as well. Your MAS 90 MAS 200 dealer can supply this upgrade.

### Documentation

Only changes made to the standard operation of MAS 90 MAS 200 have been documented in this manual. Operations not documented in this manual are standard procedures of MAS 90 MAS 200 processing. Standard MAS 90 MAS 200 processes, data entry screens, inquiry screens, reports, updates, etc., have not been changed unless addressed in this document. Parts of this document may refer to the *Specific Purpose Rule*. When referenced, the described feature was developed for a specific client to its specifications and may not conform to generally accepted MAS 90 MAS 200 standards and procedures. These features may or may not benefit you in your application of MAS 90 MAS 200.
