

Sage HRMS Learning Management by Cornerstone OnDemand

Deliver and track relevant training for business impact

According to the U.S. Department of Labor, 60 percent of all new jobs in the twenty-first century will require skills that only 20 percent of current employees possess. In a marketplace increasingly characterized by shortages of available skilled talent, ensuring that your workforce is ready to meet your business objectives is imperative.

Sage HRMS Learning Management by Cornerstone OnDemand helps you optimize your talent by delivering highly targeted training of any kind—ensuring that learning initiatives are not randomly assigned but that they actively address identified competency and skill gaps and drive organizational productivity.

Today, people are accustomed to accessing meaningful information from a huge array of sources. The reality is that workplace learning happens continuously in lots of different ways. Your employees don't always care what form the learning experience takes. Instead, the idea is to be presented with relevant training and find ways to perform better on the job.

Sage HRMS Learning Management provides a single point of access to e-learning delivery, instructor-led training (ILT) administration, virtual classroom sessions, social learning, and content management. We've even preintegrated off-the-shelf e-learning titles from leading learning content providers.

We also know that compliance risk is real. Sage HRMS Learning Management includes tools to manage any kind of one-time or recurring certification or licensing requirements.

Sage HRMS Learning Management is part of Sage HRMS Talent Management by Cornerstone OnDemand, which is delivered as true multitenant Software-as-a-Service (SaaS).

Challenges

- How can I reduce the costs of delivering development programs?
- Is it possible to link training to performance measurement and organizational goals?
- What can be done to improve the reliability of our reporting and analytics for training programs?
- My organization is global and staffed with lots of contingent and remote personnel—how can I improve internal expertise location and networking?
- How do I accommodate the way new generations of employees expect to learn?
- How do I get and keep the right talent?
