

Background and Overview

JobOps is a suite of integrated modules for the award-winning Sage ERP MAS 90 and 200 systems and is published by Synergistic Software Solutions, LLC, a separate legal entity affiliated with BDO USA, LLP. More than 700 customers, representing over 8,000 end-users have selected JobOps to power their job management operations, service requirements and workflow

Synergistic Software Solutions was founded in 1983 to provide tailored software solutions for the small to mid-sized enterprise. Synergistic is among a select group of Master Developers for Sage Software, Inc. The company is based in Minneapolis, Minnesota and has a network of JobOps Solution Providers throughout the U.S.

Product Capabilities

JobOps integrated solutions allow operational and financial information to work together and be accessible from a single source. JobOps delivers strong functionality to operations and finance —providing full-featured job management and tracking which can enhance a company's workflow.

Core functions of JobOps include estimating, orders, job planning, purchasing, scheduling, job costing and tracking and service capabilities. Optional modules include Data Collection, Configurator, Enhanced Scheduling and Field Service & Dispatch.

Strategic Partnership with Sage Software

Synergistic Software Solutions is an Authorized Sage Master Developer. We work closely with Sage in providing job management functionality delivered via JobOps specifically for Sage ERP MAS 90 and 200 software solutions.
